

## A trail camera caught a metallic UFO in Blanchard, MI

On December 22, 2016, a trail camera setted over farm in Blanchard, Isabella County, Michigan, has videotaped a **metallic flying saucer**.

### **Witness report:**

*“Going through footage from camera in field last year. Camera triggered by motion of something within 20 feet. Burst of photos shows disc, golden, more c-shaped, moving across field. I didn't see any of it at the time, but was surprised what showed up, usually it's just deer.”*
