

Kanye West claims AID was created by human

[Kanye West](#) thinks the American government created secretly **AIDs** to kill all black and gay people. Is he right?

AIDs was discovered in the 1980s. Since, a lot of people thinks AID was a chemical experiment by the CIA to kill people in Africa.

In the song "*Heard 'Em Say*", he claims:

"And I know that the government administer AIDS / So I guess we just pray like the minister say."

In 2006, he claimed to Rolling Stone magazin that he believed in this incredible theory.

"My parents taught me that AIDS was a man-made disease designed to get rid of the undesirable people."

At a 2005 concert intended to raise money to combat AIDS, West told the crowd that AIDs was a "*man-made disease ... placed in Africa just like crack was placed in the black community to break up the Black Panthers.*"

He is not the only famous people to believe in this theory. For example, Spike Lee claims that AIDs is "*a government-engineered disease.*"
