

Actress Mira Sorvino claims to have seen a UFO in Malibu

Famous American actress Mira Sorvino recently revealed that she had observed an **unidentified flying object** over the East Coast of the United States.

The 54-year-old artist is convinced that she witnessed a paranormal phenomenon while staying in Malibu, in a property she rented. She recounted her experience on The Late Late Show hosted by James Corden:

“I have seen a UFO, for real. There is nothing else to explain it. I woke up in the middle of the night. We were in a rented house in the Malibu Hills after our home was affected by the Woolsey Fire.”

Alas, she did not provide further details about this UFO. Despite everything, she is not the only one to have witnessed such a phenomenon in Malibu, California. In 2001, Amber, a resident of this coastal town, was at Zuma Beach when she witnessed something she could never explain:

“It seems as though two unidentifiable objects are shooting up and down where one almost collides into the other but does not. You will see one fly close and then continue on an upward trajectory.

They flew up and down and then disappeared only to return again a few minutes later. I saw a video shot on Tuesday (February 9) that was a missile test off the coast of Florida on Newsflare. No one can explain my video.”

NUFORC, an organization that studies such phenomena, has collected about 50 UFO sightings in Malibu over the past 60 years.
