

Cylindrical UFO sighted in Chicago in May 2022

On May 14, 2022, around 10:40 p.m., two friends saw a **cylindrical UFO** flying over the city of Chicago, Illinois. The object was silent and almost invisible to the eye. It was the city lights that revealed it...

The two witnesses told their story on the [NUFORC](#) website:

“This cylinder shaped object was moving at the speed of a low hanging cloud (moving east toward the lake, coming from the direction of O’Hare Airport). It had no lights and was exposed by the city glow. I checked twitter or reddit to see if anyone else had spotted it but found nothing. Was sitting with a friend on a 3rd story deck when we saw it. Wasn’t scary, just bizarre. Moments after it disappeared, a bush plane flew by where it had been.”
