

## Man attacked by alien in Auburn, WA

On January 17, 2024, a resident of Auburn, Washington, reported an unusual experience on the National UFO Reporting Center (NUFORC) website. According to his testimony, he was allegedly touched by an **invisible entity** at his home.

The witness, who wishes to remain anonymous, states that the incident occurred on January 17 at 11:33 PM local time (8:33 PM PST). He was in his apartment and moving around his bedroom when he felt a physical presence behind him, at the level of his buttocks. He specifies that this was not the first time such a situation had occurred.

According to his testimony, this entity would also communicate with him telepathically, claiming that the mind exists in an alternate reality to ours and that this is where these beings come from. He adds that the entity frequently tries to force him into sexual acts and has previously physically and sexually assaulted him.

The witness also claims to have had telepathic communications with other entities, who are more benevolent and less aggressive, who would speak English and transmit concrete messages about other people to him. He says he wants to file a police report to document his experiences.

He is convinced of the reality of these entities and claims that they come into contact with ordinary people every day.

He even says he has an audio recording on Google Drive where one of them can be heard saying hello to him, while he was home alone.

## Reactions and Context

The Auburn resident's story has sparked mixed reactions online. Some netizens were skeptical, while others shared similar experiences. It is important to note that NUFORC does not endorse the accounts submitted on its website and only documents them.

The experience reported by the Auburn witness is part of a larger context of accounts of alien abductions and contacts with unidentified entities. These stories, although often controversial, are the subject of ongoing research and study by various organizations and independent researchers.

It is important to emphasize that the testimony presented here does not constitute proof of the existence of extraterrestrial entities or paranormal phenomena. It is simply an individual account that deserves to be reported in the interest of objectivity and open-mindedness.
