UFO Filmed Multiple Times in Medellín

On April 9, 2022, an **incredible diamond-shaped unidentified flying object** (UFO) was captured on film above Medellín, the second most populous city in Colombia, South America.

On that day, the sky was completely clear when a mysterious black UFO flew over the city. The craft moved slowly and at a low altitude. What adds to the strangeness of this story is that a similar UFO was filmed in the same region on two occasions, on October 6, 2020, and January 29, 2020.

According to ufologist Scott C. Waring, this is evidence that aliens either have a base somewhere beneath the mountains of Medellín or they are attempting to abduct humans for the purpose of creating hybrids.

What are your thoughts on this?
