# 2 UFOs filmed near Mount Fuji in February 2022

On February 27, 2022, **two UFOs** were filmed over Mount Fuji, Japan's most famous volcano…

Scott C. Waring explains:

*“ Watch this great catch on a live cam by a UFO hunter that goes by the name of "Rafael Navarro Ferrari," on Youtube. He caught not one, but two huge craft falling from the sky and into the mouth area of Mount Fuji. I often say that UFO bases are created in places that are difficult or dangerous for humans to get there. Here again is such a place, Mount Fuji has an alien base 5-6km below the surface. Absolute fantastic catch! 100% proof that aliens exist.”*
