

Where will the Antichrist come from?

This video explores the concept of the Antichrist in relation to biblical prophecy and end-time events. It examines who the Antichrist might be, where he could come from, and his connection to the Beast and the False Prophet mentioned in the Bible. The video also discusses how the Antichrist is linked to the end-time Babylon from the Book of Revelation. Additionally, it questions whether Europe could be the modern-day Babel, with the European Parliament building symbolizing a new Tower of Babel, and why some euro coins feature the image of a woman riding the Beast.
