

Dozens saw bizarre UFO sighting at Red Rocks

What started as an ordinary night at the iconic Red Rocks Amphitheatre turned into something extraordinary when a strange object lit up the sky. For 30 seconds, a bright, mysterious light captured the audience's attention before vanishing without a trace. It wasn't a plane or a shooting star. For dozens of witnesses, there was no doubt: it was a **three-story-long UFO**. The mystery remains unsolved.
